NXDN^{TM} Forum Announces Further Member Expansion

Suwanee, GA – October 3, 2014 - The Chair of the NXDN^{TM} Forum announced the addition of four new members to the Forum.

Four new members joined the NXDN^{TM} Forum. These new member companies are; Alinco, Incorporated, Cimarron Technologies Corporation, Data Over Radio Limited and Numonix.

These new members comprise a number of industry leading two-way radio application solution providers and radio manufacturers will add to the continued support of the NXDN™ standard and 1.5 million plus NXDN™ terminals and infrastructure already in the market.

The NXDN™ Forum has 33 member companies who provide a depth of versatility in products and services for the NXDN™ platform.

The NXDN^{TM} Forum was established in July, 2008 with eight founding members including Kenwood Corporation, Icom Incorporated, Kenwood USA Corporation, Icom America Incorporated, Aeroflex Wichita Inc., and Ritron Inc. The Forum was established for the promotion of the NXDN^{TM} digital air protocol for use with 6.25 kHz and 12.5 kHz narrowband technology.
