NXDN™ Forum Plans to Open Its Technical Specification

Suwanee, GA – February 17, 2012 - The Chair of the NXDN™ Forum announced that the Forum Steering Committee will open the NXDN technical standard in 2Q 2012.

NXDN Digital products have been deployed throughout the world in hundreds of thousands of customer applications. As NXDN becomes more and more popular as the next generation narrowband two-way land mobile radio digital protocol, the market demand has been growing for products from many more vendors. To accelerate the spread of NXDN and to expand on the opportunities it provides, the Steering Committee has reached an agreement on opening its technical specification to the public domain.

The NXDN Forum will continue to operate and accept new members after opening the technical specifications and will maintain the specification and related interoperability testing.

The NXDN™ Forum:

The NXDN™ Forum is a group formed by Land Mobile radio market leader companies for the purpose of making and maintaining the NXDN™ suite of standards, ensuring interoperability between members NXDN™ products and services and the promotion of NXDN™. Member companies include Icom Incorporated, JVC KENWOOD Corporation, Aeroflex Wichita Inc., Daniels Electronics Ltd., Ritron Inc., Trident Microsystems, Anritsu Corporation, CML Microsystems plc., Etherstack Limited, General Dynamics SATCOM Technologies, Meteor Communications Corporation, Inc., Connect Systems Inc., Hoag Electronics, Inc. Pyramid Communications, Altonika, Ltd., Avtec, Inc., GME/Standard Communications Pty Ltd., Telex Radio Dispatch Group (Bosch Security Systems, Inc.) and RF Technology Pty Ltd.

(As of September 20th, 2011)
